TO AUCTION RED CROSS QUILT

The Torrance Red Cross quilt is to be raffled off at an American Legion dance to be given in the near future. This quilt was made by the American Red Cross war workers in 1917. The foundation of the quilt is cream colored and over four hundred and fifty names of Torrance residents and forty names in the honor roll are embroidered in red.

Mrs. L. Knapp of Long Beach, formerly of Torrance did the embroidery work which is done very beautiful and artistic and is arranged very attractively. An all-day quilting was held Thursday, to complete the work. Mrs. P. Brown furnished refreshments for the workers. Many hours have been spent to arrange such an artistic relic, and all should respond to show their appreciation. The lucky owner will have a very novel relic to keep for generations to come.

NEW GLASS FACTORY OPENS AT TORRANCE

The Western Glass Products company is another assured enterprise for this city. The plant covers ten acres of ground, and will manufacture a variety of products. Everything in the way of cooking utensils are some of the things to be made. The officers are H. Tyree, president; R. D. Steele, vice president; W. W. Wylie, treasurer. The perfecting of the iron gas-electric process by the Llewellyn Iron Works was the advance guard of the coming industrial revolution to be quickly followed by this company whose factories will be in full operation by the coming summer.

There is an abundance of raw materials in Southern California for the manufacture of glass products of all required grades and qualities; the sulphate of soda deposits in the desert exist in quantity. These deposits have been located and prospected to the fullest extent in order to justify the investment of large capital in the glass industry.

PERMIT NEEDED TO CARRY BOOZE

A sweeping prohibition ordinance similar to the Volstead enforcement act was passed by the county board of supervisors this week.

The act absolutely prohibits bringing liquor into the county without a permit from the board. Permits may be obtained on payment of \$5.

Provisions are made in the ordinance that no one shall have liquor on his person, on the public highways, in a public vehicle, on a public waterway, or in water craft or air craft.

Violations of the ordinance are punishable by a maximum penalty of \$300 or 90 days in jail.

READ WHAT JONES AND BROWN THINK OF TORRANCE

JONES' PAY DAY

Jones and his wife figuring: Let's see, wife, we must put \$10.00 of this week's pay with \$10 of each pay for the next three weeks away for the rent, and my street car book is used up. That is \$10.35, and you must pay the Jap \$7 for vegetables. Say, but it's tough. I can't see why Brown has all the luck and we have to grind all the time. I get just as much pay as he does. I can't see any way out unless the "kid" quits school and goes to work.

BROWN'S PAY DAY

Gee, wife. I stopped at the bank and deposited \$10.00, which makes \$500.00 cash in the bank. Say but wasn't we in luck when we bought this place, just a few years ago, on the easy payment plan? No more rent to pay. No car fare, and that two hours I used to spend on the cars every day I put in on our garden, and that \$10.00 car are for three or four months we spend for chickens. Guess we had better send the "kid" to Stanford. Too bad Jones didn't buy when we did. Poor fellow he'll wake up some day.

HOUSEHOLD HOMINESS

(By Aunt Polly)
"Diligence is the Mother of Good Fortune."

SYSTEM

When I had the pleasure of setting next to "Prudence Penny" at a club luncheon, I was very much gratified to find that we had several hobbies in common. In her talk before the club in the afternoon, she stressed the subject of systematizing work in the home, and said she could never in the world care for her five-room bungalow, cook for her son and self, and tend the duties of her newspaper work without careful, intelligent planning. She is better equipped than the majority with labor saving devices, but even with that help, her work must be studied, and every housekeeper must do the same in both small and large establishments. I know I need it in the home as much as your uncle Mark does in his business.

FRUIT IN THE DIET

Fruits furnish necessary organic salts, pleasing flavor and an attractive

form of food. They contain water, much body-building and body-regulating materials.—Boston Cook Book.

OYSTER, OR SALISFY PLANT

To 1 quart cold water add 3 tablespoons vinegar, drop vegetable into this as each one is prepared and with plate keep them under water. Now mix smoothly 2 tablespoons flour with 2 tablespoons vinegar, cut the plants into this mixture. Put in saucepan, cover with cold water. Salt to taste, boil briskly 40 minutes. Serve with melted butter dressing. If cooked this way they will be white, not mark.—Mrs. M. E. S.

There is nothing better for a tonic drink than hot milk, with a pinch of salt. It immediately quickens the circulation and warms the whole body. A cup of hot milk makes one feel cheerful and especially at bedtime. It can be prepared with half water and a pinch of soda, if the digestion is weak. In all cases, whether taken hot or cold, milk should be sipped and not eagerly swallowed. It may produce gas, or curds in the stomach,

otherwise. Hot milk and milk foods should be given to children of all ages in abundance during cold weather. By milk foods I mean all sorts of gruels and the potato and corn soups that are made with milk.—Boston Cook Book.

STUFFED EGG PLANT

Remove hull from vegetable; wash and wrap in cheesecloth; plunge in boiling water to cook for half an hour; then remove in a pulp; chop fine; add 1 teaspoonful salt, 1 tablespoon chopped onion, 1 tablespoon green pepper minced, seed rejected; 1 cup minced cooked veal; 1 tablespoon butter; refill shell. Bake in quick oven for half an hour; serve with raw tomatoes.—Mrs. V. B. de M.

VEGETABLES AS MEDICINE

Natural remedies for almost every disease that afflicts humanity may be found in vegetables. Lettuce is good for the nerves, containing as it does, opium in its natural state. Celery is also good for the nerves, and for nervous dyspepsia. Those suffering from rheu-

matic troubles should use celery, pieplant and all tart fruits. Onions are said to be the best nerve known. Nothing will so quickly relieve nervous prostration and tone up the worn-out system. For kidney troubles, use spinach. Carrots are good for asthma and will also improve the complexion if eaten raw. Cucumbers contain arsenic, and if eaten freely will benefit the complexion.—Mrs. N. M.

STUFFED CABBAGE

Split a head of cabbage, remove center without spoiling shape, stuff with cold cooked corn beef cut in shape with cheesecloth and boil in salted water half an hour.

TOMATO BUTTER

Cook ripe tomatoes, season and put through colander to remove seeds. Take equal amount sour apple sauce well cooked and add to tomatoes, sweeten slightly and let boil until it begins to thicken. Be careful not to burn. Put into jelly glasses or jars. Very nice with meat.—Mrs. G. L. K.
